Focused on Interim Healthcare Leadership

NHS Solutions is an industry leading, specialty hospital search firm focused on short-term manager, director, VP, and C-level Clinical and Non-Clinical management positions. Some companies focus on locum tenens and travelling nurses. Others provide retained or contingent permanent search and/or consulting services. A few of these companies 'add on' interim staffing as an opportunistic afterthought. At NHS Solutions all we do is interim staffing. As a result, we have become nationally recognized for best-in-class because of our successful focus.

Interim Healthcare Leader Benefits
